

FLUID LEVEL GAUGE

(MODEL: SG 3/5)

- Level gauges are available with or without temperature gauges and are available in two sizes – 3" & 5" between bolt centers.
- They are also options of heat dial / thermometer temperature indicators.
- The temperature scale is in between 30°C to 80°C.
- Only two holes are to be drilled onto the tank to fix the level gauge.
- All Level Gauges sight glass is made with Polycarbonate.
- The outer case is Powder coated and has a low profile.
- These are suitable for use with all mineral and petroleum based hydraulic fluids. Excellent for hydraulic reservoirs, gear boxes, fuel tanks, lubrication reservoirs and crank cases.
